PROFILE

Mid-level **React Native Developer** with strong full-stack experience in **Node.js, Next.js, Laravel, and Shopify**. 1.5+ years of experience building scalable, production-level cross-platform apps and e-commerce solutions. Proven track record delivering **live apps** on Play Store and managing complete product lifecycles: mobile development, backend APIs, real-time features, and payments. Passionate about **performance optimization**, clean architecture, and user-centric design.

TECHNICAL SKILLS

Mobile Development:	React Native (CLI & Expo), Redux Toolkit, Java
Frontend:	JavaScript, TypeScript, Next.js, HTML/CSS
Backend:	Node.js, Express.js, NestJS, PHP, Laravel, REST APIs
E-commerce:	Shopify App/Theme Development, Payment Integrations
Real-time/Cloud:	Firebase (Auth, Firestore, FCM), WebSockets
Tools/Databases:	Git, MySQL, Postman, Docker, CI/CD (GitHub Actions)

PROFESSIONAL EXPERIENCE

React Native & Full-stack Developer Crescentic Digital — Karachi	June 2025 – Present
--	---------------------

- Leading cross-platform mobile development with React Native and TypeScript.
- Integrated secure **payment gateways** and dynamic multi-step forms.
- Refactored and modularized legacy codebases for performance improvement.
- Collaborated with designers, QA, and backend teams to deliver production-ready features.

React Native Developer QF Network — Karachi	Dec 2024 – June 2025
---	----------------------

- Delivered scalable **locksmith and utility service apps** with booking + e-commerce.
- Built real-time booking, notifications, and location-based service modules.
- Integrated Firebase + WebSockets for instant updates and push notifications.
- Automated CI/CD pipelines to reduce deployment time.

Full-stack Intern SilverPoint — Lahore	Jun 2024 – Sep 2024
--	---------------------

- Developed features for school management and chat systems using Laravel & React.js.
- Built CRUD APIs, user roles, and real-time messaging.
- Contributed to frontend dashboards and responsive UI.

Open Source Contributor

- Built and contributed to apps like bus booking, e-challan system (MVC-based).
- Enhanced UI/UX and fixed bugs in open learning tools and mini-apps.

KEY PROJECTS

Speedy Auto Keys – Locksmith E-commerce App (Live)

([Play Store](#))

- Full-stack solution with React Native (mobile), Laravel (backend), and MySQL.
- Features: locksmith booking, key e-commerce, secure payments, real-time tracking.
- Built **admin panel**, **locksmith dashboard**, and **customer-facing app**.

HealthyChoice – Food Ordering App (Calo Clone, Bahrain)

- End-to-end food ordering platform inspired by **Calo**, tailored for Bahrain market.
- Features: personalized meal plans, calorie tracking, subscription ordering, and delivery tracking.
- Integrated **AI-powered assistant** for meal recommendations based on dietary preferences.
- Stack: React Native, Node.js, Next.js, Firebase, Stripe for payments.

Lekture – AI Reading Assistant (In Development)

[\(View Code\)](#)

- AI-powered reading assistant with OCR, GPT integration, and real-time speech feedback.
- Stack: React Native, Express.js, Firebase, MLKit.

Shopify Apps & Extensions

- Built custom Shopify apps for **extended product shipping, subscriptions, and cart transformation**.
- Implemented checkout extensibility with advanced cart logic + subscription renewals.
- Created reusable extensions with UI modals, year selectors, and product enhancements.
- Backend built with **Node.js + Next.js**, integrated with Shopify Admin API & Storefront API.

SpeakSure – AI Language Learning App (FYP)

[\(View Code\)](#)

- React Native app with AI chat (Dialogflow), gamification, and progress tracking.
- Backend with PHP + MySQL.

MatchMate – Cricket Scoring App

[\(View Code\)](#)

- Real-time cricket scoring with AI-powered bowling action analysis.
- Stack: React Native + PHP + Local DB.

EDUCATION

Bachelor of Computer Science

2021 – 2024

PAF-KIET University — Karachi

GPA: 3.2 / 4.0

CERTIFICATIONS

- React Native Specialization — 2023
- Freelancing Basics — 2023
